

# PcMars PLUS

## Enhancement Software For PcMars

*PcMars PLUS for Windows is an enhancement to PcMars Windows cash full version. It adds additional capabilities to PcMars: Complete Inventory Tracking, Livestock Production Data, Crop Production Data, Enterprise Allocation, Combine Set Of Books Utility, Extra Report Capabilities.*

### ➤ **Inventory Tracking**—PcMars PLUS

allows you to automatically increase or decrease inventory items (ie: corn, beans, hogs, supplies) when entering cash transactions. The inventory is adjusted by the entry of inventory quantities entered into your PcMars cash transactions for purchases and/or sales.

Vendor	Code	Enterprise	Amount	Description	PC	Units	Weight	Inv #
Coop Elevator	300	CRN	\$12,000.00	Sold from Butler	OP	4000	0	1260
Coop Elevator	450	CRN	\$50.00	checkoff	OP			1329

➤ **Non-Cash Inventory**— You can also enter inventory actions to track non-cash inventory activities such as enterprise transfers, crops harvested, feed fed to livestock and livestock births and deaths. End of month assets and liability numbers are automatically calculated and can be displayed and reported at any time.

➤ **Fair Market Value**—You are able to quickly and easily assign your inventory a FMV and generate a net worth for any month.

➤ **See Crop Production Data Instantly**—You can see an instant snapshot of crop numbers displayed in a spreadsheet view “check” screen. This shows inventory numbers and changes for both cash and non-cash activity on a monthly basis. You are able to add or edit any changes in inventory right from this screen. You are also able to print reports reflecting any changes made.

### ➤ **Easily Enter Crop Production**

#### **Data**

—You are provided an easy-to-fill out entry screen to enter crop production data by field and/or farm. Field acreage, planting, harvest and production data can be entered for owned, cash rented, or crop share rented categories. A summary screen and reporting options are also available.

➤ **Livestock Production Data**—You have the ability to view an instant snapshot of monthly livestock numbers organized in a spreadsheet view. This shows inventory numbers and changes for both cash and non-cash activity on a monthly basis. You are able to make changes in inventory easily by adding, editing or printing reports.

Month	First of Month	Purchased	Trans In	Sub-Total (IN)	Sold	Died	Trans Out	Sub-Total (OUT)	End of Month	Liters Farrowed
Jan	52		10	10			1	1	61	
Feb	61	20		20				0	81	
Mar	81			0	2			2	79	2
Apr	79		5	5		2		2	82	3
May	82			0				0	82	
Jun	82			0				0	82	
<b>Yr End Totals</b>										
		20	15	35	2	1	1	3	82	5

- **Enterprise Allocation**—You have the ability to allocate cash transaction activity that was entered in the GEN (general) enterprise to other enterprises by percent or dollars. An Allocated Enterprise Report has been created for you to visually show these allocations.
- **Combine Utility**—You are provided with a special utility which combines cash transactions from two sets of books all into one. This utility can be used to combine two fiscal years into one calendar year set of books. Or, you could combine two accounting entities into one.
- **Additional Helpful Reports**—PcMars PLUS contains many more possible reports to be ran to help you track inventory, assets, liabilities, production, etc. better than you thought possible. The following are the additional reports you will have access to:

- ◆ Allocated Enterprise Report
- ◆ Enterprise Analysis Report
- ◆ Inventory Tracking Report
- ◆ Inventory Summary Report
- ◆ Farm Asset Report
- ◆ Farm Liability Report
- ◆ Non-Farm Asset and Liability Report
- ◆ Financial Summary Report
- ◆ Livestock Check Report
- ◆ Crop and Feed Check Report
- ◆ Crop Production Report

PcMars PLUS is an enhancement to PcMars for Windows Full version. You must have the most current version of PcMars for this enhancement to work. PcMars PLUS is only for the cash version and tracks inventory for the net worth. Your tax reports are still cash basis. Since PcMars PLUS is an enhancement to PcMars Full, you will still be able to access all your past PcMars data. The additional features in PcMars PLUS will simply be grayed out in prior PcMars data. However, you have the capability to convert all PcMars data from Full to PLUS format.
